

MassaPro Conversational Journey

Agentic Native Omni-channel Platform

THE AGENTIC AI REVOLUTION

One Brain. Every Channel. Full Journey Automation.

MassaPro deploys a single intelligent agentic solution that manages the entire trader lifecycle — from first click to funded account — across every channel, priced by full conversations, not minutes.

01

"One Brain" Philosophy

A single Agentic AI orchestrates the entire trader journey. Instead of fragmented tools, **one intelligent agent** learns, adapts, and evolves with every interaction — delivering continuity that traditional CRM stacks cannot match.

02

Lead Generation

AI agents prospect 24/7 across social, search, and referral networks. **Context-aware outreach** identifies high-intent traders before competitors, triggering personalized first-touch sequences that convert cold traffic into qualified pipeline.

02

Lead Generation

AI agents prospect 24/7 across social, search, and referral networks. **Context-aware outreach** identifies high-intent traders before competitors, triggering personalized first-touch sequences that convert cold traffic into qualified pipeline.

04

Conversion: Proprietary LLM & Voice

Our **proprietary LLM** handles real-time objections with Financial-fluent precision. AI voice agents close deposits via natural phone conversations — no scripts, no hold times. The result: conversion rates that human-only teams simply cannot sustain.

05

Pay for Conversations, Not Minutes

Traditional platforms charge per call minute. MassaPro charges **per entire flow conversation** — whether it spans one email or ten touchpoints or channels.

COST-PER-FLOW = 1 Interaction = Entire Flow Conversation (Multichannel)

Email Chat WhatsApp SMS Voice Call Voice Messages

06

Customer Support: AI Guru

The **AI Guru** resolves 85%+ of support tickets instantly — account issues, deposit queries, platform navigation — without a human agent. Complex cases escalate seamlessly with full context preserved.

07

Omni-Channel Reach

Every channel. One conversation. Traders start on WhatsApp, continue on email, close on a voice call — the agent remembers every word. Zero context loss across any touchpoint.

Scale Revenue Without Scaling Overhead

MassaPro's Agentic AI handles **thousands of concurrent trader conversations** without adding headcount. From onboarding to retention, every workflow is automated, measured, and optimized. Deploy once, scale infinitely — your margins grow as your volume does.

COST COMPARISON

Traditional vs. MassaPro Pricing

DIMENSION	TRADITIONAL (PER-MINUTE)	MASSAPRO (PER-FLOW)
Pricing Model	Per call minute — longer calls cost more	Per entire flow — one price, any length
Multi-Channel	Each channel billed separately X	All channels in one flow ✓
Cost Predictability	Variable — spikes during peak hours	Fixed — know exactly what you pay
Scaling Cost	Costs rise linearly with volume	Costs decrease per flow at scale
Conversation Continuity	Lost when switching channels X	Seamless context across all channels
